Dear Reader:

The following pages summarize the basic governmental structure and public services of each of Palm Beach County's 37 municipalities. Basic boundary maps for each municipality are provided as well.

Since officials in local government change periodically, the facts in this publication are updated and republished semi-annually (May and November). Beginning with this issue, four pages of data from the similar, and previously separate, Directory of the Palm Beach County Municipal League are presented in addition to the data usually found in the Profile.

Additional information on any specific municipality may be obtained by contacting the Area Planning Board Research Section.

Sincerely,

Frank W. Brutt
